Welcome to the Fieldstone Model by McEwen Construction. This large Colonial home sits prominently across from a Park-like commons. True to its architectural design, you will be charmed as you step onto the wrap-around porch. When you enter this home you are welcomed by the graceful foyer.

The two-story, soaring living room boasts ten large windows, bringing the beautiful outdoor spaces right into your home. The inviting stone fireplace climbs all the way up to the nineteen foot ceiling.

This home's interior is beautifully designed and furnished by Armstrong Interiors. The open design takes you into the delightful and chef-ready kitchen furnished by Schafer's TV & Appliance Center, that flows into the spacious informal dining area. Walk out from this room into the screened-in porch and enjoy a meal outdoors. For those more formal occasions there is a dining room just off the foyer with an exceptional view of one of the beautiful Village Garden's green spaces.

This home boasts four bedrooms and four bath areas. The master suite is conveniently located on the first floor. You will also notice the no-step entrance from the garage. Other rooms include a second floor recreational room, a kids play room, a loft area, a theater room, and a large laundry room with ample cabinets and a sink. In this graceful home you will also find the convenience of two stairways.

Quality abounds throughout this fine home by McEwen Construction. The attention to detail will not disappoint you.
